

# UP targets 250% increase in exports in four years: Siddharth Nath Singh

**DEEPA JAINANI**  
Lucknow, February 11

**ALIGNING ITSELF TO** the central government's aim of increasing exports, the Uttar Pradesh government has set itself a highly ambitious target of exporting goods worth ₹3 lakh crore in the next four years from the present ₹1.2 lakh crore, which is an increase of nearly 250%.

Speaking to *FE*, Uttar Pradesh's minister for MSME, Investment and Export Promotion Siddharth Nath Singh said to cash in the space that China has been forced to vacate due

to geopolitical disturbances, the Uttar Pradesh government had roped in international consultancy firm PriceWaterhouseCoopers (PwC) and has prepared an export strategy for the state. While 17 key sectors have been primarily identified, in the first phase, the focus would be on the top five priority products that have export potential and good demand in the global markets.

The identified sectors are electronics and electrical equipment, apparel, machine and equipment, processed food items and organic chemicals. The shortlisted priority prod-

ucts currently contribute to around 63% of the exports from UP and account for around 5% of India's exports.

"We decided to take the professional help of PwC to carve out a comprehensive export strategy for integrating UP with the global supply chain network, keeping in mind the current challenges and global opportunities. We have also tried to find product opportunities where China previously had a major global export share, the chain of which has now been disrupted owing to Covid," he said adding that UP has a market presence in many sectors.

# Gas output rises above pre-Covid level: DGH

**INDIA'S NATURAL GAS** production has risen above the pre-Covid level following the start of output from a KG-D6 field operated by Reliance Industries (RIL) and its partner BP, upstream regulator DGH said on Thursday.

Natural gas production in the country in February 2020 was 80 million standard cubic meters per day and in January this year it reached 82 mmscmd, said Anand Gupta, Additional Director General (Development), Directorate General of Hydrocarbons (DGH).

"Yesterday the production was 84 mmscmd," he said at

the 'Upstream Ahead' conference. "By end of the month, production is expected to reach 85 mmscmd," he said.

The rise in output, he said, was a result of RIL and BP starting production from a field in their KG-D6 block.

"BP along with Reliance has made it possible," he said.

DGH, the government custodian of upstream oil and gas production in the country, said production levels are likely to be higher in the 2021 calendar year. This will be the first year to see an increase in output since 2019-20.

—PTI

# Govt to spin off NDR into separate company

The government will create a company to own and operate India's maiden National Data Repository (NDR) that stores information on the vast sedimentary basins in a bid to boost oil and gas exploration and production. "The government has decided that NDR will be transferred into a separate company," said Amar Nath, joint secretary in the Petroleum ministry.

The NDR was launched in 2017 to assimilate, preserve and upkeep the country's vast sedimentary data for future use in oil and gas exploration and production.

—PTI

# Engineering exporters upbeat about demand as Jan exports grow above 18%

**FE BUREAU**  
Kolkata, February 11

**INDIAN ENGINEERING EXPORTS** have increased by 18.69% during January 2021 with exporters expressing optimism about external demand in the remaining months of the current financial year.

According to an EEP assessment, India which has 60% of its members from the MSME sector in the past few months have shown a robust recovery in the external demand, the major markets being the US and Europe besides several key Asian markets. Buoyed by the government's Production Linked Incentives (PLI) scheme under the Atmanirbhar Bharat programme, the engineering exporters are planning to add new value-added items in their external portfolio.

Market diversification, helped by the PLI scheme would go a long way in scaling up the engineering exports which contribute about 25% of the country's total merchandise export basket, EEP India chairman Manesh Desai said.

Engineering exports for January this year have gone up to \$7,174.43 million from \$6,011.43 million in the same month last fiscal.

This has raised prospects for February and March with exporters already having navigated the post-Covid global market with innovative offerings to the buyers, Desai said, adding the government has extended a great help to engineering exporters in the latest Union budget by reining the prices of steel, the key raw material.
